

## VENDOR TIPS

Copy of Tax Exempt Letter: Our tax exempt number is printed on your P-Card, but in cases where you need a copy of the tax exempt letter, hard copies are located in a bin outside the Krannert Store, or email Bill Kephart ([kephrt@illinois.edu](mailto:kephrt@illinois.edu)) for a PDF copy.

Phone orders or P-Card chip issues: In cases where you phone in an order or a credit card machine cannot read the P-Card chip, the vendor will need to manually enter your card information. Not all vendors know this, but when the vendor asks you for your ADDRESS, ask them to SKIP the address prompt (by clicking Enter) and go to the next prompt, which is the ZIP CODE (61801). This works for most credit card machines, and the sale should process.

Reimbursement: While you can buy something out-of-pocket and be reimbursed, the process takes a long time and is subject to some pitfalls, so please AVOID doing that. Plus, the university will not reimburse the tax on a purchase.

Lost Receipts: While there is a form for lost receipts, it's for losers. And you're not a loser! Why? Because you DO NOT don't put your receipt in the bag when you buy something, you put it in your wallet! [Hypnotically] Don't you...

## TAX EXEMPTION ONLINE

You may not be able to tell whether an online order will be taxed until you are on the checkout page. You can usually enter an order and stop just before the final confirmation; at that point you should see whether tax is being added. If a vendor clearly DOES charge tax, they usually offer a way to make a tax exempt purchase. Just call and ask.

- There are a variety of ways they may set up your tax exempt account, but typically they have you sign up for their online account then send in your tax exempt letter. All future purchases on that account will reference that tax exemption.
- Other vendors are more complicated. TALK TO Bill Kephart if a vendor wants you to sign a bunch of paperwork to set up tax exemption with their business; he'll help you find a solution.
- **Walmart.com** is NOT the same as the Walmart store (mentioned below). They always charge tax and they do NOT use the same internal tax exempt number as the local store. I have the steps for getting an exception on Walmart.com, so talk to me if you MUST buy online, just know that the online tax exemption takes a few days.
- **IF YOU ARE CHARGED TAX**, despite your best efforts to avoid it, contact the vendor and explain the situation. You can usually get the tax refunded in a separate transaction (after you follow their instructions for tax exemption).
- **IF VENDOR CANNOT OFFER TAX EXEMPTION OF REFUND TAX** the university requires you get this in writing. If in person, have the vendor note it in writing on the receipt and get their SIGNATURE. If online, have them send an email stating that fact. That said, I'm sure you'll tell me first, and I may be able to find a way around their denial...

## TAX EXEMPTION PER VENDOR

Page 2 is a list of common local (and online) vendors with specific details on how they handle tax exemption. Some simply use the default UIUC phone number (333-1000), some have an internal number assigned to the university, some have you fill out a little tax exempt form every time you make a purchase, and some vendors are particular about how that tax exemption is referenced.

**FOR LOCAL VENDORS: The tax exemption # for Krannert Center is the same number used by every U of I campus, so if a local vendor has the number listed in their system under "U of I Vet Med" – that's FINE, tell them to use it – it's all the same tax exempt #.**

VENDOR	Reference Phone #	Vendor-Internal Tax Exempt #	DETAILS
			<i>NOTE: If you have issues with any vendor's internal tax-exempt #, let me know, so I can update this document. Some may have expired.</i>
Amazon	N/A	N/A	Only STAFF may buy from Amazon as tax exemption is only available for UIUC buyers. Attempts to have tax returned after a purchase may be denied.
